Experiment - 8

Student Counselling System Using Zoho One (SaaS)

Aim

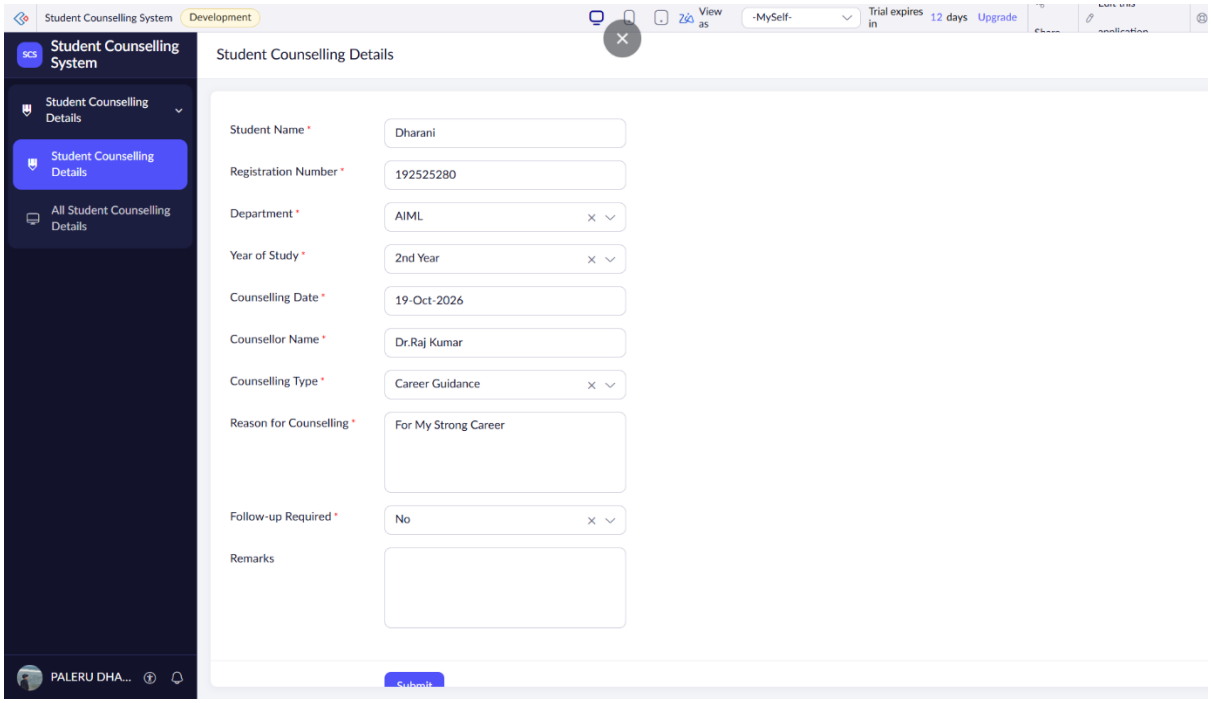

To create a cloud-based **Student Counselling System** using Zoho One / Zoho Creator to record and manage student counselling details and demonstrate Software as a Service (SaaS).

Procedure

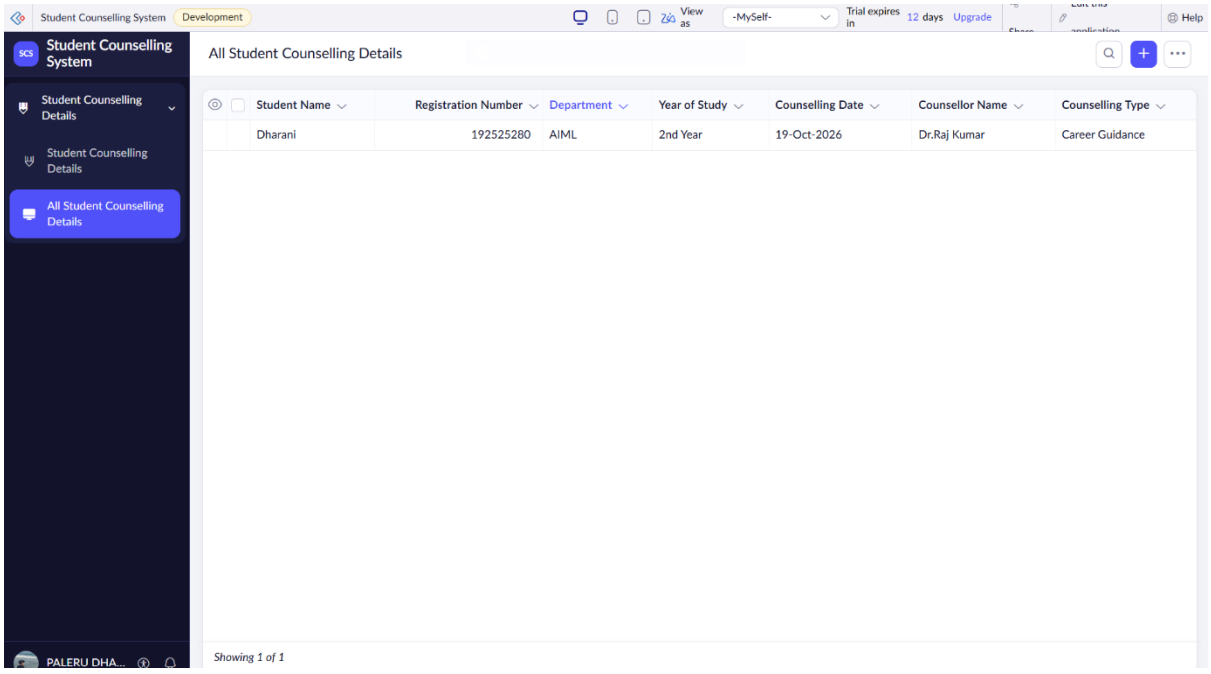

1. Log in to the Zoho One account.
2. Open Zoho Creator from the applications menu.
3. Create a new application named Student Counselling System.
4. Create a form named Student Counselling Details.
5. Add the following fields to the form:
    a) Student Name – Single Line
    b) Registration Number – Single Line
    c) Department – Dropdown
    d) Year of Study – Dropdown
    e) Counselling Date – Date
    f) Counsellor Name – Single Line
    g) Counselling Type – Dropdown
    h) Reason for Counselling – Multi Line
    i) Follow-up Required – Dropdown
    j) Remarks – Multi Line
6. Configure the Department dropdown with options such as CSE, AIML, IT, ECE, and EEE.
7. Configure the Year of Study dropdown with First Year, Second Year, Third Year, and Fourth Year.
8. Configure the Counselling Type dropdown with Academic, Career Guidance, Personal Guidance, and Behavioural Guidance.
9. Configure the Follow-up Required dropdown with Yes and No.
10. Arrange the fields properly to create a user-friendly form.
11. Save and publish the application.
12. Enter sample student counselling details.
13. Submit the form and verify that the details are stored in the cloud.
14. Open the report section to view the submitted counselling records.
15. Test the system by entering details for different students and counselling dates.
16. Verify that the application is accessible through Zoho Creator as a cloud-based SaaS application.

Implementation

Input:

Output:

Result

Thus, the Student Counselling System was successfully created using Zoho One / Zoho Creator. The application records and manages student counselling details in the cloud, demonstrating the Software as a Service (SaaS) model.
