

## Experiment -1

### Car Booking Reservation System Using Zoho One (SaaS)

#### Aim

To create a **Car Booking Reservation System** using **Zoho One** as a cloud-based Software as a Service (SaaS) application.

#### Procedure

1. Log in to the **Zoho One** cloud platform.
2. Open **Zoho Creator** from the Zoho One applications.
3. Create a new application for the **Car Booking Reservation System**.
4. Create a new form named **Car Booking Reservation**.
5. Add the required fields:
  - From
  - To
  - Rental
  - Outstation
  - Package Type
  - Hours/Days
6. Configure the field types according to the data required.
7. Design and arrange the form for easy user interaction.
8. Save and publish the form.
9. Enter sample cab booking details into the form.
10. Submit the form and verify that the entered data is stored in the cloud.
11. Test the application by entering different booking details.
12. Verify that the **Car Booking Reservation System** works successfully as a SaaS application.

# Implementation

## Input:

The screenshot shows the 'Book a Cab' form in the Creator application. The form is titled 'Book a Cab' and is located in the 'Dharani' section. The form fields are as follows:

- Customer Name: First Name (text input), Last Name (text input)
- Employee ID: (text input)
- Email Id: (text input)
- Mobile Number: (+91 dropdown, 81234 56789 text input)
- Gender: (Male/Female radio buttons)
- Booking Date: (01-Oct-2026 date picker)
- Travel Date: (dd-MMM-yyyy date picker)
- Pickup Time: (-Select- dropdown)
- Pickup Address: Address Line 1 (text input), Address Line 2 (text input)

The form is displayed in a dark-themed sidebar on the left, and the main content area is white. The top bar shows the 'Creator' logo and the 'Dharani' section. The bottom bar shows the 'My Profile', 'Chats', 'Channels', 'Threads', and 'Contacts' tabs.

## Output:

The screenshot shows the 'Bookings' table in the Creator application. The table is titled 'Bookings' and is located in the 'Dharani' section. The table has the following columns: Customer Name, Employee ID, and Email Id. The table contains one row of data:

| Customer Name  | Employee ID | Email Id                      |
|----------------|-------------|-------------------------------|
| Paleru Dharani | 192525280   | 192525280.simats@saveetha.com |

The table is displayed in a dark-themed sidebar on the left, and the main content area is white. The top bar shows the 'Creator' logo and the 'Dharani' section. The bottom bar shows the 'My Profile', 'Chats', 'Channels', 'Threads', and 'Contacts' tabs.

Below the table, there is an 'Overview' section with the following details:

|                     |                                                                           |
|---------------------|---------------------------------------------------------------------------|
| Customer Name       | Paleru Dharani                                                            |
| Employee ID         | 192525280                                                                 |
| Email Id            | 192525280.simats@saveetha.com                                             |
| Mobile Number       | +919494777869                                                             |
| Gender              | Male                                                                      |
| Booking Date        | 01-Oct-2026                                                               |
| Travel Date         | 01-Oct-2026                                                               |
| Pickup Time         | Time 1                                                                    |
| Pickup Address      | chennai, Saveetha University, Ongole, Andra Pradesh, 523186, India        |
| Destination Address | Ongole,Prakasam District, Rachapudi, Ongole, Andra Pradesh, 523186, India |

Below the overview section, there is an 'Add a comment' button.

## **Result**

Thus, a **Car Booking Reservation System** was successfully created using **Zoho One** and demonstrated as a **Software as a Service (SaaS)** application.
